

CYCLEWASH · DATASHEET

Mini Station

Complete manual cleaning station.

399

PRECISION COMPONENTS

Under 1 litre per minute.

WATER USAGE

OPERATION MODE

Operation mode Manual, 3-in-1: pre-clean, rinse, air dry (LuftWASH built in). Entry point of the range; upgradeable to Mini Basic (semi-automatic) or Mini Platinum.

Weight about 100 kg

Compressor High-performance blade compressor for permanent installation (optional), or a portable mobile compressor for events and flexible deployments (price on request).

Oil / sludge separator External oil and sludge separator: optional accessory.

Environment Minimal water use combined with biodegradable cleaning agents; built to last, small environmental footprint.

UPGRADE PATH

Mini Station (Manual) → Mini Basic (Semi-Automatic) → Mini Platinum (Premium, full stainless steel). Every step is compatible; start simple, scale when ready.

Outright purchase only, at list price. We offer discounts from time to time — visit our website to see current offers. There is no franchise. There are no pilot projects. For volume purchases of more than five machines we offer flexible alternatives such as leasing, rental and financing — get in touch with us.
